Hello Robina,

CR&R Metal Recyclers, located at 11292 Western Ave in Stanton CA is a RCRA regulated Small Quantity Generator facility. There are no inspection records or reported violations in the past 5 years. It is unlikely that US EPA would inspect this type of facility, Cal Recycle is likely a better bet for current and up to date information.

Here is a link to the Federal database report, available to the public.

Here is a little bit of background information on RCRA

Thank You,

-Eric
